

Multipurpose Safety Cutters

Opens many types of packaging

Recessed blade is finger-safe

Prevents damage to contents

Klever Koncept

Our latest product, the Klever Koncept promises to build upon the success of the Klever Cutter. Its ergonomic design offers increased comfort and usability and its slightly wider opening cuts through 90% of common cardboard thicknesses in use today.

- Increased handle size for ergonomic ease of use
- Unique curved shape rests naturally in the hand
- Carbon steel blade for increased product life
- Slightly larger blade opening for cutting thicker cardboard
- Bright, vibrant colors
- Dishwasher safe helps eliminate cross-contamination
- Simple design for easy storage
- Real world tested and proven
- Dimensions: 5 3/4" x 1 1/2"

Klever Cutter

Our original product, the Klever Cutter, offers many unique characteristics and obvious advantages over standard utility blades. As a result, the Klever Cutter has been profiled on television news, the Paul Harvey radio show, and many newspapers throughout the U.S. and Canada. We recently received an International Export Award from the US Commerce Department.

- Dual hook design lasts twice as long as single blade cutters
- Unique cardboard piercing shape prevents damage to carton contents
- Recessed blade prevents contact with fingers, eliminating costly injuries
- High visibility color makes it easy to find in cluttered work environments
- Dishwasher safe helps eliminate cross-contamination
- Simple design for easy storage
- Dimensions: 4 5/8" x 1 1/4"
