

safety cutter

New! Ceramic Safety Cutter

MSRP: \$5.99

Let's cut to the chase. You need a cutting tool that's quick, easy, and safe. Articles, coupons, art projects, scrapbooking, plastic packages designed to keep out Houdini—don't grab scissors or some other weapon of mass destruction. Instead, keep **slice™** Safety Cutter handy with its high-tech ceramic blade that's almost as hard as diamonds. You may find it just as valuable as you slice through projects with ease and keep your fingers safe and sound.

Oh yeah, that recessed ceramic blade lasts longer than steel and never rusts. Ever. Add a built-in magnet and key-ring hole, and it's two thumbs up for the **slice™** Safety Cutter. **Simple. Sharp. Safe.**
